

SAVE JAZZ.FM91

October 30, 2018

In early October, Ms Renah Persofsky's name as a Director of JAZZ.FM91 was removed from the station's website. We have now received information that Ms Persofsky, as well as former Chair Bernard Webber and Alan Gee are no longer directors, although bios of the latter two are still on the station's website.

No formal announcement of their stepping down as Directors has been made, nor have replacements been named.

Poor communication and lack of transparency were two of the strongest criticisms of the Board at the AGM on August 31, 2018, and yet nothing seems to have changed.

It's time for this Board to step aside, or at least have meaningful discussions with Save JAZZ.FM91 about reconstituting the Board and winning back support from donors and listeners.
